Hi Chipp:

Understood and thanks for your prompt response. It's appreciated.

Brad:

I have consulted all the EPA FR editors, and here is where we stand regarding these six documents:

1. **FRL-10006-70-OAR**; on 6/1/2020 Stephanie Morris sent you additional edits from the EPA program. She has not heard back from you on those additional EPA program edits sent on 6/1/2020.
2. **FRL-10006-74-OAR**; Stephanie Morris states that the EPA program approved the edits, and she conveyed this to you.
3. **FRL-10006-76-OAR**; Patricia Brooks states that the EPA program approved the edits, and she conveyed this to you.
4. **FRL-10006-87-OAR**; Elizabeth Thomas states that the EPA program approved the edits, and I conveyed this to you.
5. **FRL-10006-88-OAR**; Stephanie Washington sent your edits from 5/27/2020 to the EPA program today, 6/19/2020, and is awaiting a response from the EPA program.
6. **FRL-10006-94-OAR**; Stephanie Washington sent your edits from 5/27/2020 to the EPA program today, 6/19/2020, and is awaiting a response from the EPA program.

Subject: Seeking Status of Several EPA Documents

Hi Brad:

The EPA program has requested that we inquire with OFR on the status of several EPA documents that have been at your office since March 2020. Specifically, the EPA program would like to know if there is an update on when these documents will publish. Attached is the OFR special handling letter that was submitted for the documents.

I am reaching out to you because I know that you have reviewed some of the documents, but I don't know if you actually reviewed all of them.

Please advise ASAP.

No problem. I'll try and remember to reply when I get the others. I think you still have a few, but I haven't checked for sure.

Thanks. Just wanted to be sure you received the email.

Also, I know, regarding this statement you made below:

"I scheduled the one that I sent that wasn't part of the series (2020-05909)"

Thanks for the above.

Yes, I did. I haven't moved on them because of today's work combined with checking the publication order. But I've received a few approvals and have them on reminder.

I scheduled the one that I sent that wasn't part of the series (2020-05909)

Hi Brad:

The EPA program states the following regarding this document, **Document number 2020-05898; FRL-10006-87-OAR**, which **is** one of the six documents that has to publish in a certain order.

“We approve the OFR edits for publication.”

Also, as a friendly reminder the EPA program states the following:

“We would like to provide a reminder that, due to IBR considerations, this action should publish following:

Cellulose RTR, FRL-10006-76-OAR.”

Attached is the special handling letter with the order the six documents should publish in for your reference.

Subject: Series of Part 63 Rules

Good afternoon,

I've gotten through all the documents submitted way back in March. I know we've traded markup in the time since on some of these, but since several depended on the actions in others, it's best if you review all again for accuracy's sake.

Please review all of them, as several have new edits and one or two may be our first pass-backs. In 5898, I explain some of the edits that EPA questioned/exploined at its end last time.

Some need decisions or perhaps language, like headings, in places.

Hopefully we're on the verge of finally moving these things along.

Thanks,

Brad Brooks
